

## “Managing the Critically Ill Child”

Wednesday 9<sup>th</sup> October 2024  
At Sandy Park Exeter, EX2 7NN

The South West Paediatric Critical Care Operational Delivery Network in collaboration with the South West Critical Care Network will be hosting a free clinical update day on the management of the critically ill child.

The day is aimed at Clinicians, Nursing and AHP colleagues that manage critically ill children locally in the South West region prior to transfer to PICU.

The agenda is yet to be finalised, but the day will include interactive case study sessions using an A to E approach in managing the critically ill child.

To register your interest in attending please complete the MS Form by scanning the QR code.
